

Regulators around the world are preparing for mandated XBRL Filing.

- Are you ready?
- Is your organization ready?
- Is your company online with knowledgeable consultants?
- Will you be prepared to advise you clients?
- Did you know there is a taxonomy for Small and Medium-sized Entities?
- What is your plan for compliance?
- Who should you call?

The 15<sup>th</sup> XBRL International Conference in Munich is designed to prepare you and your company representatives for the upcoming global changes in business & financial reporting:

### **“Integrating XBRL worldwide: From Small to Medium-sized enterprises to Large Companies”**

Why should you Travel to Munich?

Unlike past conferences, this conference is focused on showing attendees how to get prepared with: Implementation and Action. The program is designed so that you will learn first-hand from the experts about world-wide projects, innovative solutions and ground breaking user friendly tools.

Attendees will experience live XBRL State of the Art demonstrations from some of the world's XBRL leaders. These exhibitions will reveal both the Power of digital reporting and the business benefits to your organisation of XBRL implementation.

No where else in the world is this opportunity **NOW** to talk to the XBRL creators and industry experts about the necessary next steps for you, your organization and your company.
